Vision and Values

**The Christian faith is at the heart of our school community.
At Christ Church we all care, learn and work together for God and others.**

‘For we are all God’s handiwork, created in Christ Jesus to do good works, which God prepared in advance for us to do’. Ephesians 2:10

**Our Christian Values are
Creation, Community, Endurance, Thankfulness, Reconciliation, Wisdom**

The distinctive nature of our approach to education can be found in our explicit Christian values, our collective worship, our grounded Christian ethos, our carefully crafted curriculum and in our Religious Education.

We aim to provide ambitious learning opportunities, promoting achievement in every area and nurturing social, emotional and spiritual well-being.

We actively promote the children’s cultural capital (defined as the acquisition of skills and knowledge, which an individual can draw on to give them an advantage in life). We will introduce them to strong role models who will impart their knowledge and wisdom to help the children engender an appreciation of human creativity and achievement and to become responsible local and global citizens.

Character and resilience are the qualities we promote within our children, developing the inner resources that we call on to help us in life. We instil these qualities in our children to make sure that they are ready to make their way in the world as robust, confident and inquisitive individuals.

We know that confidence, knowledge and skills will help them to become compassionate and well balanced young people. We want them to take their place in society as active citizens, economically independent, exemplifying the British values of equality, mutual respect, democracy, individual liberty and rule of law.

We use our six Christian values, Creation, Wisdom, Thankfulness, Community Endurance and Reconciliation, to reinforce and enrich our teaching wherever applicable.

- **Creation**

For every house is built by someone, but God is the builder of everything. Hebrews 3:4

- **Wisdom**

For the LORD gives wisdom; from his mouth come knowledge and understanding. Proverbs 2:6

- **Thankfulness**

Give thanks to the LORD, for he is good; his love endures forever. 1 Chronicles 16:34

- **Community**

My command is this: Love each other as I have loved you. John 15:12

- **Endurance**

Let us not become weary in doing good, for at the proper time we will reap a harvest if we do not give up. Galatians 6:9

- **Reconciliation**

Bear with each other and forgive one another if any of you has a grievance against someone. Forgive as the Lord forgave you.

Colossians 3:13

Our vision is inclusive and seeks to promote the whole child thrive within our Christ Church family.

Each member of our Christ church family; children, parents and staff are valued as God's creation. We believe in full inclusion and acceptance of all and that this allows every individual to flourish.

Christ Church C of E Primary School **Intimate and Personal Care Policy**

Introduction

Principles: Christ Church School is committed to ensuring that all staff responsible for the intimate care of children will undertake their duties in a respectful and professional manner at all times.

The Governing Body will act in accordance with Section 175 of the Education Act 2002 and the Government guidance 'Safeguarding Children and Safer Recruitment in Education' (2006) to safeguard and promote the welfare of pupils¹ at this school.

This school takes seriously its responsibility to safeguard and promote the welfare of the children and young people in its care. Meeting a pupil's intimate care needs is one aspect of safeguarding.

The Governing Body recognises its duties and responsibilities in relation to the Equalities Act 2010 which requires that any pupil with an impairment that affects his/her ability to carry out day-to-day activities must not be discriminated against.

This intimate care policy should be read in conjunction with the school's policies as below (or similarly named):

- safeguarding policy and child protection procedures
- staff code of conduct and guidance on safer working practice
- 'whistle-blowing' and allegations management policies
- health and safety policy and procedures
- Special Educational Needs policy

The Governing Body is committed to ensuring that all staff responsible for the intimate care of pupils will undertake their duties in a professional manner at all times. It is acknowledged that these adults are in a position of great trust.

We recognise that there is a need to treat all pupils, whatever their age, gender, disability, religion, ethnicity or sexual orientation with respect and dignity when intimate care is given. The child's welfare is of paramount importance and his/her experience of intimate and personal care should be a positive one. It is essential that every pupil is treated as an individual and that care is given gently and sensitively: no pupil should be attended to in a way that causes distress or pain.

Staff will work in close partnership with parent/carers and other professionals to share information and provide continuity of care.

Where pupils with complex and/or long term health conditions have a health care plan in place, the plan should, where relevant, take into account the principles and best practice guidance in this intimate care policy.

Members of staff must be given the choice as to whether they are prepared to provide intimate care to pupils.

All staff undertaking intimate care must be given appropriate training.

This Intimate and Personal Care Policy has been developed to safeguard children and staff. It applies to everyone involved in the intimate care of children.

Child Focused Principles of Intimate Care

The following are the fundamental principles upon which the policy is based:

- Every child has the right to be safe.
- Every child has the right to personal privacy.
- Every child has the right to be valued as an individual.
- Every child has the right to be treated with dignity and respect.
- Every child has the right to be involved and consulted in their own intimate care to the best of their abilities.
- Every child has the right to express their views on their own intimate care and to have such views taken into account.
- Every child has the right to have levels of intimate care that are as consistent as possible.

Definition

Intimate care can be defined as any care which involves washing, touching or carrying out a procedure to intimate personal areas which most people usually carry out themselves but some pupils are unable to do because of their young age, physical difficulties or other special needs. This includes care associated with washing, feeding, toileting or nappy changing or dressing.

It also includes supervision of pupils involved in intimate self-care.

Best Practice

Pupils who require regular assistance with intimate care have written Individual Education Plans (IEPs) and or Health Care Plans which may include intimate care plans agreed by staff, parents/carers and any other professionals actively involved, such as school nurses or physiotherapists.

Ideally the plan should be agreed at a meeting at which all key staff and the pupil should also be present wherever possible/appropriate. Any historical concerns (such as past abuse) should be taken into account. The plan should be reviewed as necessary, but at least annually, and at any time of change of circumstances, e.g. for trips or staff changes (where the staff member concerned is providing intimate care). They should also take into account procedures for educational visits/day trips.

Where relevant, it is good practice to agree with the pupil and parents/carers appropriate terminology for private parts of the body and functions and this should be noted in the plan.

Where a Health Care Plan or IEP is not in place, parents/carers will be informed the same day if their child has needed help with meeting intimate care needs (eg has had an 'accident' and wet or soiled him/herself). It is recommended practice that information on intimate care should be treated as confidential and communicated in person or by telephone.

Accurate records should also be kept when a child requires assistance with regular intimate care; these can be brief but should, as a minimum, include full date, times and any comments such as changes in the child's behaviour. It should be clear who was present in every case.

These records will be kept in the child's file and available to parents/carers on request.

In the case of a 'one off' toilet/soiling incident, the parent will be informed discreetly at the end of the day and informed of who the adult was that changed their child.

All pupils will be supported to achieve the highest level of autonomy that is possible given their age and abilities. Staff will encourage each individual pupil to do as much for his/herself as possible.

Staff should be fully aware of best practice regarding infection control, including the requirement to wear disposable gloves and aprons where appropriate.

There must be careful communication with each pupil who needs help with intimate care in line with their preferred means of communication (verbal, symbolic, etc) to discuss their needs and preferences. Where the pupil is of an appropriate age and level of understanding permission should be sought before starting an intimate procedure.

Staff who provide intimate care should speak to the pupil personally by name, explain what they are doing and communicate with all children in a way that reflects their ages.

Every child's right to privacy and modesty will be respected. Careful consideration will be given to each pupil's situation to determine who and how many carers might need to be present when s/he needs help with intimate care. SEN advice suggests that reducing the numbers of staff involved goes some way to preserving the child's privacy and dignity. Wherever possible, the pupil's wishes and feelings should be sought and taken into account.

An individual member of staff should inform another appropriate adult when they are going to assist a pupil with intimate care.

The religious views, beliefs and cultural values of children and their families should be taken into account, particularly as they might affect certain practices or determine the gender of the carer.

Adults who assist pupils with intimate care should be employees of the school, not students or volunteers, and therefore have the usual range of safer recruitment checks, including enhanced DBS checks.

All staff should be aware of the school's confidentiality policy. Sensitive information will be shared only with those who need to know.

Health & Safety guidelines should be adhered to regarding waste products, if necessary; advice should be taken from Camden H and S regarding disposal of large amounts of waste products or any quantity of products that come under the heading of clinical waste.

No member of staff will carry a mobile phone, camera or similar device whilst providing intimate care.

Child Protection

The Governors and staff at this school recognise that pupils with Special Needs and who are disabled are particularly vulnerable to all types of abuse.

The school's child protection procedures will be adhered to.

From a child protection perspective it is acknowledged that intimate care involves risks for children and adults as it may involve staff touching private parts of a pupil's body. In this school best practice will be promoted and all adults (including those who are involved in intimate care and others in the vicinity) will be encouraged to be vigilant at all times, to seek advice where relevant and take account of safer working practice.

Where appropriate, pupils will be taught personal safety skills carefully matched to their level of development and understanding.

If a pupil becomes unusually distressed or very unhappy about being cared for by a particular member of staff, this should be reported to the class teacher or Headteacher. The matter will be investigated at an appropriate level (usually the Headteacher) and outcomes recorded. Parents/carers will be contacted as soon as possible in order to reach a resolution. Staffing schedules will be altered until the issue/s is/are resolved so that the child's needs remain paramount. Further advice will be taken from outside agencies if necessary.

If a pupil, or any other person, makes an allegation against an adult working at the school this should be reported to the Headteacher (or to the Chair of Governors if the concern is about the Headteacher) who will consult the Local Authority Designated Officer in accordance with the school's policy: Dealing with Allegations of Abuse against Members of Staff and Volunteers. It should not be discussed with any other members of staff or the member of staff the allegation relates to.

Similarly, any adult who has concerns about the conduct of a colleague at the school or about any improper practice will report this to the Headteacher or to the Chair of Governors, in accordance with the child protection procedures and 'whistle-blowing' policy.

Physiotherapy

Pupils who require physiotherapy whilst at school should have this carried out by a trained physiotherapist. If it is agreed in the IEP or care plan that a member of the school staff should undertake part of the physiotherapy regime (such as assisting children with exercises), then the required technique must be demonstrated by the physiotherapist personally, written guidance given and updated regularly. The physiotherapist should observe the member of staff applying the technique. Under no circumstances should school staff devise and carry out their own exercises or physiotherapy programmes.

This policy will come under review every two years.
